

Laminate Flooring

Brand Story

As the interior materials industry enters a new era shaped by sustainable development and greater environmental responsibility, MH was founded with the ambition of pioneering a new benchmark for the engineered wood market in Vietnam. Guided by authentic and enduring values, MH places health safety and exceptional quality at the core of every product.

MH integrates advanced manufacturing technologies with carefully selected FSC-certified materials, ensuring transparency and full traceability of origin. Each surfaced panel is designed to meet stringent international standards for emissions and health safety, including CARB P2, E1, and E0 certifications, while featuring a next-generation moisture-resistant core that enhances durability and supports the creation of healthier, more sustainable living environments.

Beyond delivering products, MH is committed to building a comprehensive ecosystem for customers and partners alike. Every surface design can be personalized, every collection carries its own distinctive aesthetic identity, and every experience is thoughtfully crafted with dedication and care.

At MH, we do more than provide interior materials. We aspire to shape a new standard of living, where homeowners and their loved ones can enjoy spaces that are healthy, safe, and truly fulfilling.

EXCELLENCE
IN QUALITY

DEFINING
NEW STANDARDS

Why Choose MH Flooring?

Driven by a commitment to protecting consumer health, MH ECO FLOOR is developed to meet stringent international standards for formaldehyde emissions, carrying globally recognized certifications that satisfy the strict requirements of demanding markets such as the United States and Europe. More than just a flooring solution, MH ECO FLOOR helps create a healthier, safer, and more reassuring living environment for every family.

Beyond its focus on safety, MH ECO FLOOR is thoughtfully designed to achieve a balance between aesthetics and functionality. Refined woodgrain textures paired with a contemporary color palette allow the flooring to seamlessly complement a wide range of premium interior styles.

Built with a durable HDF core and rated AC4/AC5 for wear resistance, MH ECO FLOOR delivers long-lasting stability and performance over time. Its scratch-resistant surface, moisture and water resistance, along with the internationally recognized UNICLIC locking system, ensure quick and convenient installation while adapting effectively to Vietnam's hot and humid climate. As a result, MH ECO FLOOR offers a reliable flooring solution for both residential spaces and commercial projects alike.

Technical Specifications

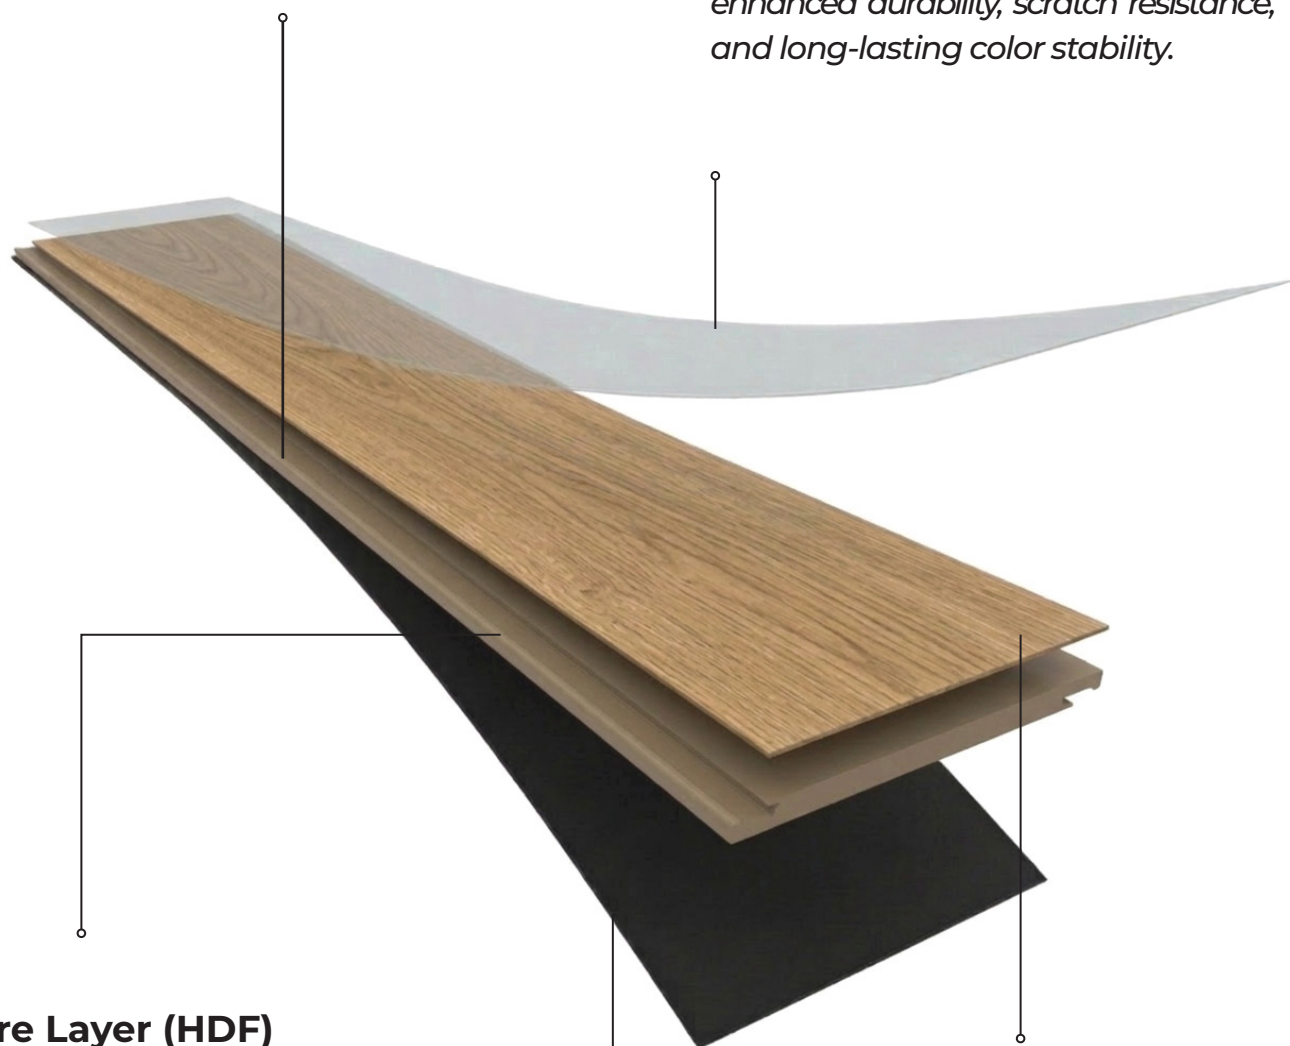

-
- *Dimensions: 1215 × 196 mm & 1515 × 238 mm*
-
- *Thickness: 8 mm & 12 mm*
-
- *Abrasion Resistance Rating: AC4 / AC5*
-
- *Surface Finish: Woodgrain Texture*
-
- *Core Material: HDF (High-Density Fiberboard)*
-
- *Locking System: Uniclic*
-
- *Edge Profile: Square Edge*
-
- *Installation Method: Click Lock System*
-
- *Formaldehyde Emission Standard: **CARB P2***
-
- *Residential Warranty: 10 years*
-

UNICLIC Locking System

International-standard UNICLIC locking system for easy, secure, and efficient installation.

Wearing Layer

AC4 / AC5 abrasion resistance for enhanced durability, scratch resistance, and long-lasting color stability.

Core Layer (HDF)

- CARB P2 certified, ensuring low formaldehyde emissions, odor-free performance, and safer indoor air quality for both children and the elderly, while meeting the stringent health safety standards of the U.S. market.

- Swelling rate $\leq 10\%$, providing superior moisture resistance and excellent suitability for Vietnam's hot and humid climate.

Decorative Layer

Elegant and contemporary woodgrain designs that elevate modern interior spaces.

EVA Foam Layer

Water-resistant and anti-mold properties combined with sound insulation, noise reduction, and enhanced underfoot comfort for a quieter and more pleasant living experience.

2026 Collection

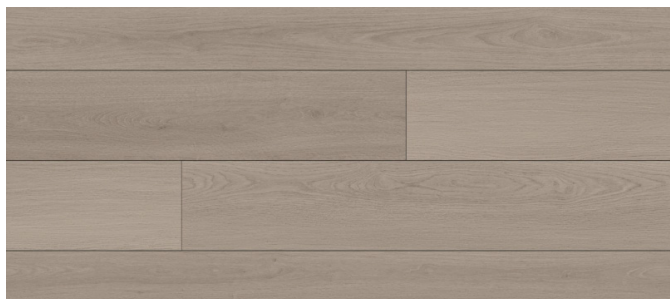

ECOLIFE ÉLITE

MH proudly introduces the **Ecolife Élite** premium flooring collection, thoughtfully crafted for spaces that celebrate refinement and enduring value. **Ecolife Élite** embodies a harmonious blend of sophisticated aesthetics, health-conscious living, and lasting durability. Inspired by the rich depth of natural wood, the collection captures the delicate interplay of grain textures and tonal variations that evolve beautifully under changing light throughout the day.

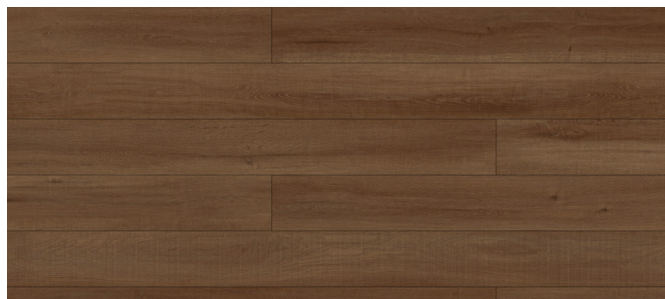

Each plank reflects a balance between softness and strength, creating an atmosphere that feels warm without excess and elegant without complication. Guided by a minimalist design philosophy and a commitment to sustainable values, **Ecolife Élite** sets a new benchmark for contemporary living spaces.

Cleaning & Maintenance Guidelines

To preserve the lasting beauty and performance of MH flooring, we recommend following these care and maintenance guidelines:

1

Protective felt pads are recommended under all furniture legs to minimize surface scratches. For chairs with casters, soft rubber wheels are advised, while hard plastic or metal wheels should be avoided. Placing doormats at entrances can also help reduce dirt, dust, and moisture brought in from outside.

2

Regular cleaning should primarily be done by sweeping, dusting, or dry mopping. A lightly damp mop may be used with clean water, provided the mop is thoroughly wrung out before use. Do not pour water or any liquid directly onto the floor, and avoid using excessively wet mops that may leave standing water on the surface. In the event of spills, water or liquid should be wiped dry immediately. Moisture should never be allowed to remain on the flooring surface longer than necessary.

3

Do not use harsh cleaning agents, abrasive chemicals, soap-based products, wax, or polishing solutions, as these may damage the floor's surface finish. When vacuuming, only use attachments specifically designed for hard flooring. Vacuum cleaners with rotating brush heads, floor scrubbers, spray mops, steam cleaners, polishing machines, or similar equipment should not be used.

Price list

May Home Limited Company respectfully presents the pricing details for MH Eco Floor products as follows:

No.	Product	Dimensions (mm)	Unit	Listed Price (VND)	Packaging Details
1	MH Eco Floor - Abrasion resistance rating: AC4 with silver nano coating - Formaldehyde emission standard: Carb P2 - Swelling: after 24h immersion: $\leq 10\%$ - Density: $\geq 850 \text{ kg/m}^3$ - Locking system: UNILIN - Beveled edge coating - Underlay: EVA 2mm	1215 x 196 x 8	m2	668,000	10 planks / box 2.38 m ² / box
2	MH Eco Floor - Abrasion resistance rating: AC4 with silver nano coating - Formaldehyde emission standard: Carb P2 - Swelling: after 24h immersion: $\leq 10\%$ - Density: $\geq 850 \text{ kg/m}^3$ - Locking system: UNILIN - Beveled edge coating	1215 x 196 x 12	m2	886,000	6 planks / box 1.43 m ² / box
3	MH Eco Floor - Abrasion resistance rating: AC4 with silver nano coating - Formaldehyde emission standard: Carb P2 - Swelling: after 24h immersion: $\leq 10\%$ - Density: $\geq 850 \text{ kg/m}^3$ - Locking system: UNILIN - Beveled edge coating	1515x 238 x 12	m2	968,000	6 planks / box 2.16 m ² / box

Notes:

- MH Eco Floor products are covered by a 10-year residential warranty in accordance with the manufacturer's policy.
